Position Title: Life & Health Risk Transformation

Opportunity Type: Internship
Opportunity Location: Armonk or New York, NY
Start Date: 05/29/2012 – 08/10/2012

Swiss Re is a leading and highly diversified global reinsurer. The company operates through offices in over 25 countries. Founded in Zurich, Switzerland, in 1863, Swiss Re offers financial services products that enable risk-taking essential to enterprise and progress. The company's traditional reinsurance products and related services for property and casualty, as well as the life and health business are complemented by insurance-based corporate finance solutions and supplementary services for comprehensive risk management. (For more company information, go to www.swissre.com)

Job Description:

The core function of LHRT is to transfer Swiss Re's Life & Health risk to the capital markets, as well as assuming life insurance in non-traditional formats. As such, the team works with both internal and external clients on a variety of risk and financing solutions that lie at the intersection of banking and insurance. One example would be designing, underwriting, and helping to sell mortality-linked bonds to investors. The team is comprised of 15 professionals in New York and London, and most have actuarial or CFA designations. The primary responsibility of this role will be to provide crucial support to the team, in an analytic, and potentially transactional, context. This includes:

- Building Excel-based models for risk analysis & other transaction support
- Prepare presentations & documents
- Assist with project management functions

In addition, the position may support the global team for numerous functions, such as reporting, presentation preparation, outreach with other areas of the firm, and coordination with the London office.

Program Details:

Every year, Swiss Re offers internships to a number of bright and highly motivated students, enabling them to benefit from the company's global perspective and to discover the world.

A Swiss Re internship can be much more than a temporary job - it can be your first step to a rewarding career.

The program is expected to last 10 - 12 weeks, offers competitive salaries, and is offered in different Swiss Re locations.

Requirements:

*Acceptable Majors – Economics, Mathematics, Engineering, or other majors involving analytic coursework. Curriculums with strong writing requirements are a plus.

- In Junior year of an undergrad degree program
- Exceptional academic performance
- Highly motivated with an ability to work in a collaborative environment
- Strong analytical and quantitative skills
- Excellent written and verbal communications skills, especially of complex solutions.
- Ability to sustain high level of work output and meet very tight deadlines.
- Independent thinking and creative problem solving skills
- Advanced Excel and good computer aptitude is also required.

Interested candidates should apply through www.swissre.com/interns. Applications will only be accepted through our website. Swiss Re is an Equal Opportunity Employer
